

Almac HV Substation Electrical Balance of Plant Contract

Customer: **ALMAC**

Country: **United kingdom**

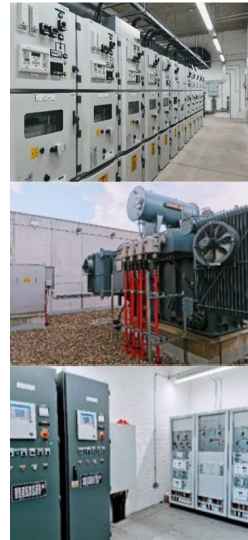

Site: **Craigavon - County Armagh, Northern Ireland**

PROJECT DESCRIPTION

Omexom Renewables completed the Electrical Balance of Plant install at the new HV Substation at Almac.

Almac is a Northern Ireland-based Pharmaceutical Manufacturer, who required a new HV Substation to consolidate their various HV Supplies into one HV Substation.

The Project involved Electrical Design, Procurement of Electrical Plant, Installation, and Commissioning of the Electrical System including 2x 33/11kV Transformers, 12x Panel ABB Switchboard, Aux Transformer
